WELCOME TO ASEAN CERAMICS & ASEAN STONE 2024

Together with ASEAN Ceramics, we are pleased to announce the premiere of ASEAN Stone dedicated for natural stone, related machinery, tools, chemicals and materials to support in helping Southeast Asia countries and Vietnam deliver the 2050 Vision. Both events will provide for the rising demand from the commercial, residential, industrial and infrastructure sectors in this region.

ASEAN Stone will focus on applications for building & monumental - the first dedicated exhibition of stone, allied machinery, tools, chemicals and materials in Southeast Asia e.g granite, quartz, marble slabs, mosaic and natural stone, stone processing and cutting devices, quarrying machines and polishing equipment.

8th ASEAN Ceramics, with co-organizer Vietnam Building Ceramic Association (VIBCA), will remain its focus on raw materials as well as technology and machinery for the production of refractory materials, bricks, tiles, sanitary ceramics, tableware and advanced ceramics - the perfect gateway to meet the ASEAN regional buyers and global suppliers, establish trade relationships and expand geographic reach.

The **synergy of co-location of Ceramics and Stone** provides an extremely powerful and significant avenue for networking at an incredibly important time for our industry where technology and knowledge from both industries can be shared whilst specific programming and events will continue to serve each show thus providing a brand-new set of experiences and solutions to attendees.

As you join the 5,000+ attendees at the 8th edition of ASEAN Ceramics and ASEAN Stone 2024, this dedicated Visitor Show Planner will help you plan your visit with useful information on:
